

TEEJAY BULACITO

PROGRAMMER

About Me

In high school, I loved programming and got partially good at it. I knew my way around languages like HTML and JavaScript. I could solve problems and handle algorithms well. It was a great way for me to show off my skills.

EXPERIENCE

Back End Developer Crossover Davao City, Davao del Sur via Crossover 2021-2022

In my job as a back-end developer, I make sure everything in the software worked smoothly. I focused on things like server stuff, databases, and application logic to create the parts of the software that users might not notice but use every day.
